-  Fire Alarm maintenance and installation
-  Emergency Lighting maintenance and installation
-  Health & Safety audit and review

Safesmart Ltd is a specialist in all aspects of fire safety management and is making the burden on organisations nationwide as insignificant as possible.

Safesmart pride ourselves on providing high levels of service, without high levels of cost and has helped organisations of all types and sizes guarantee that they comply with fire safety legislation.

The unique Smartlog platform provides organisations with a complete overview of compliance. It provides training for unlimited staff members, a reminder system for maintenance checks, a risk assessment platform, health and safety assessments and full audit trail to demonstrate compliance.

Contact us to find out how Safesmart could help your organisation be confident that it complies with the law, and save you money, time and effort.
